Dayanand Science Jr College **70.67%**

Secondary School Certificate (SSC) June 2019 – May 2020
New Jyotirgamaya English School **92.40%**

ACADEMIC PROJECTS

Hospital Management System Django, Python, MySQL

- Developed a full-stack web application to digitize and streamline hospital operations for patients, doctors, and administrative staff.
- Implemented modules for patient registration, appointment scheduling, doctor management, and real-time data access using Django (Python) and MySQL.
- Reduced manual administrative effort by centralizing data workflows into a single, role-based web platform.

CODE&COFFEE – E-Commerce Prototype Django, HTML/CSS, SQLite

- Designed and built a prototype e-commerce website blending tech and lifestyle themes, allowing users to browse and order beverages and snacks online.
- Implemented user-facing product catalog, ordering workflow, and backend data management using Django, HTML/CSS, and SQLite.
- Demonstrated end-to-end product thinking from brand concept through to functional digital deployment.

CERTIFICATIONS

- **Tata (Forage)**Gen AI-Powered Data Analytics Job Simulation –
- **Deloitte (Forage)**Data Analytics Job Simulation –
- **Dr. D.Y. Patil University (DPU)**Web Development Certification –

ACHIEVEMENTS & ADDITIONAL INFORMATION

- Strong academic track record — SGPA 8.18 in BBA-CA, 92.40% in SSC, consistently above required eligibility thresholds.
- Completed two industry-recognised virtual job simulations in Data Analytics (Tata & Deloitte) demonstrating initiative and professional curiosity.
- Multilingual — proficient in English, Hindi, and Marathi, enabling effective communication with diverse end-user groups across Cognizant's global client base.
- Willing and available to work in any shift from any Cognizant office location across PAN India.
